

# COSMOS workshop

## COmputational Statistics and MOlecular Simulation

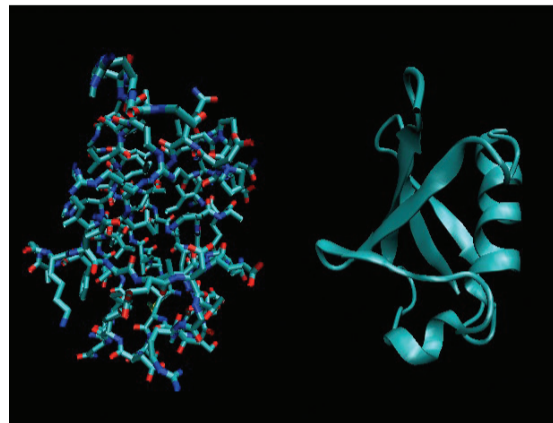

European Research Council  
Established by the European Commission

February  
2<sup>nd</sup>-5<sup>th</sup>  
2016,  
Convent  
«Les cordeliers»,  
Paris

### Speakers:

- Christophe Andrieu (University of Bristol)
- Nils Berglund (Université d'Orléans)
- Alexandros Beskos (University College London)
- Thierry Bodineau (Ecole polytechnique)
- Luke Bornn (Harvard University)
- Freddy Bouchet (Ecole Normale Supérieure Lyon)
- Nicolas Chopin (ENSAE Paris)
- Gabor Csanyi (University of Cambridge)
- Paul Dupuis (Brown University)
- Andreas Eberle (Universität Bonn)
- Pep Espanol (UNAD Madrid)
- Mark Freidlin (University of Maryland)
- Josselin Garnier (Université Paris VII)
- Gerhard Hummer (Max-Planck Institut)
- Nikolas Kantas (Imperial College London)
- Werner Krauth (Ecole Normale Supérieure Paris)
- Gilles Lebeau (Université de Nice)
- Florent Malrieu (Université de Tours)
- Eric Moulines (Telecom Paris and Ecole polytechnique)
- Stefano Olla (Université Paris Dauphine)
- Luc Rey-Bellet (University of Massachusetts)
- Scott Schmidler (Duke University)
- Andrew Stuart (University of Warwick)
- Eric Vanden-Eijnden (Courant Institute)
- Arthur Voter (Los Alamos National Labs)

### Organizing team:

Arnaud Guyader (UPMC), Tony Lelièvre and Gabriel Stoltz (Ecole des Ponts and Inria)

The aim of this workshop is to gather researchers working on mathematical aspects of modeling and numerical methods for various applications ranging from computational statistics to molecular dynamics in biology and chemistry.

Two poster sessions will be organized. Registration is free but mandatory.
